

NORTH CAROLINA PORTS®

YOUR LINK TO A STRONGER COLD CHAIN.

Powered by productivity, cost efficiency and service that goes beyond.

We're perfectly positioned to support your success. Not only are we located along major land and water distribution routes—we offer exceptional on-port productivity, with no vessel dwell time to slow you down. And, as always, we're dedicated to your business. We work with you to find solutions that keep your world moving, while also keeping costs down.

1,500 plugs for refrigerated containers

Fastest truck turn times on the East Coast

One of the highest crane productivity rates on the East Coast

No vessel or rail dwell times

- Dedicated customer service team that delivers customized solutions
- Our Customer Access Portal (CAP) for real-time visibility into cargo movements

Near-Port Capabilities

- Cold storage supporting produce, protein and life science
- USDA APHIS-certified cold treatment facility

NORTH CAROLINA PORTS®

OUR STATE. YOUR HOME FOR BEST-IN-CLASS COLD SOLUTIONS.

Located in the nation's fastest-growing region, North Carolina has an increasing number of consumers who require year-round access to fruits, vegetables and proteins. We're ready to help you meet this demand with unrivaled speed, exceptional productivity and dedicated service.

We continue to make improvements to support your cold chain needs, including the recent expansion of our 1,500-plug refrigerated container yard at the Port of Wilmington. We're ready to lead the way in cold chain as companies continue to invest in growth outside of our gates, bringing even more cold capacity to our back yard—and yours.
